Please find attached a couple draft pages from our Fish-DO report that will provide context for tomorrow's pre-meeting. They are stamped accordingly, but please do not distribute. These are just for our discussion. The report has not even been reviewed internally yet.

Hi Tom – Can we meet tomorrow sometime in the morning starting sometime before 10:30, or alternatively, from 1:30 – 2:30. If so we can meet. We haven't been able to reach Greg, but Erica Fleisig would be able to join me on the call. - Jim

Hi Greg – please see below.

Can you spring free for 30 minutes tomorrow ending anytime before 3p? Or, alternatively, after 2p on Friday?

Hi Tom – I would love to hear where you stand on the fish-DO relationship and could share my thoughts about it. It's important to recognize that nothing I would say should be understood as an Agency position or as potentially limiting the positions that EPA might take in the future, but I suspect you know that already. I think that Greg Voigt might appreciate being part of the conversation, and I think it would help keep me where I need to be if he was part of the meeting. If you reached out to him and could find a time that he was available, I would join. Unfortunately, I can only participate tomorrow and time before 3 PM (hard stop at 3) or Friday after 2 PM. Tomorrow would be ideal. - Jim

**Subject:** pre-meeting

Hi Jim:

Can we get together sometime tomorrow or Friday before Monday's co-regulator meeting? I wanted to share where we are on the fish-DO relationship and just share notes a bit to be on same page.

My schedule is flexible. Jake might be able to join us if we meet tomorrow.

Tom
